TIME TRACKING AND PARK CHECK-IN DETAILS

- This year, SFR participants can record their course time by text or online submission. You will have to clock your own time as we will not be using Race Joy app this year.
- The system this year allows you to submit for personal tracking/growth, employee incentive programs and greatly benefits us and each park by seeing how many people attend each week. ***We would love if you submitted your check-in, even if you don't track your time.***

TO TEXT IN RESULTS:

During the registration process one of the questions was if you wanted to opt in/out of text messages.

If you selected YES, each week you will get two texts: "Welcome to week #00 at XYZ Park" and then a text with the weekly keyword that you will reply to in order to submit your results.

- Text "Keyword Bib# Time" to 49514
 - Example for participant who is Bib #153: 1Hummel 153 24:45
- or - If you don't want to share your time but just show that you completed the course you can enter NONE instead of a time
 - Example for participant who is Bib #153: 1Hummel 153 NONE
- *If you registered multiple people with the same phone number, you will get a text per person. Reply to each message separately with the corresponding persons bib number and time.*

Each week will have a different key word that will expire at midnight the last day of the park's week.

- Example: Week 1 at Hummel is from June 1-7. The keyword to report times via text and website closes on the 7th at 11:59 PM.

If you selected NO and would now like to submit results via text, you will have to initiate the text yourself each week. You will not receive the automated texts. Follow the same directions as above to send your results with or without your time.

If you selected YES and no longer want to receive texts, follow the instructions on the first automated text you receive to opt out.
